About Rethink Mental Illness

Rethink Mental Illness is a charity that believes a better life is possible for millions of people affected by mental illness. For more than 40 years we have brought people together to support each other. We run services and support groups that change people's lives and challenge attitudes about mental illness.

We directly support almost 60,000 people every year across England to get through crises, to live independently and to realise they are not alone. We give information and advice to 500,000 more and we change policy and attitudes for millions.

Leading the way to a better quality of life for everyone severely affected by mental illness.
